Preface.....	viii
Acknowledgments.....	ix
About the Authors.....	xii
How to Use This Guide.....	1
Insect and Mite Diagnostic Keys.....	4
Disease Diagnostic Keys.....	14
Insect and mite pests (listed by damage symptoms/pest type)	
Leaf surface damage, discoloration, mottling, mold, honeydew	
White apple leafhopper.....	33
Potato leafhopper.....	34
Rose leafhopper.....	34
Apple sucker.....	35
Pear psylla.....	36
Cornstock mealybug.....	37
Aphids, leaf-curling damage	
Apple leaf (curling) midge.....	38
Potato leafhopper.....	34
Spirea aphid.....	39
Apple aphid.....	39
Apple grain aphid.....	39
Black cherry aphid.....	40
Green peach aphid.....	41
Black peach aphid.....	42
Rosy apple aphid.....	43
Woolly apple aphid.....	44
Leafminers	
Apple (Lyonetia) leafminer.....	45
Cherry leafminer.....	46
Spotted tentiform leafminer.....	47
Apple blotch leafminer.....	47
Chewing damage to buds, blossoms, leaves	
Leaf weevils.....	48
European earwig.....	48
Click beetles.....	48
Pear thrips.....	49
Climbing cutworms.....	50
Darksided • Dinky • Mottled • Spotted • Variegated • W-marked	
Green pug.....	51
Mineola moth (Destructive pruneworm).....	52
Apple pith moth.....	53
Cigar casebearer.....	54
Pistol casebearer.....	54
Eyespotted bud moth.....	55
Green fruitworms.....	56
Speckled • Widestriped • Humped • Bailey green • Fourlined green	
Leafrolling, shelters, defoliation, webbing	
Pale apple leafroller.....	58
Fruitree leafroller.....	59
Winter moth.....	60
Tent caterpillars.....	61
Eastern • Forest	
Fail webworm.....	62
Gypsy moth.....	63
Skeletonizing damage to leaves	
Pear slug (Pear sawfly).....	64
Skeletonizers.....	65
Apple-and-thorn • Appleleaf • Birch	
Spring cankerworm.....	66
Redhumped caterpillar.....	67
Fruit stings, scars, bumps, spotting, russetting	
Apple red bug.....	68
Pear plant bug (Green apple bug).....	68
Hawthorn dark bug.....	68
Mullein plant bug.....	69
Apple brown bug.....	69
Stink bugs.....	70
Green • Brown • Dusky • Brown marmorated	

Tarnished plant bug.....	72
Western flower thrips.....	73
Flower thrips.....	73

Chewing/surface damage to fruit

Japanese beetle.....	74
Rose chafer.....	74
Green June beetle.....	75
Lesser appleworm.....	76
Obliquebanded leafroller.....	77
Threelined (Pandemis) leafroller.....	77
Redbanded leafroller.....	79
Tufted apple bud moth.....	80
Sparganothis fruitworm.....	81
Variegated leafroller.....	81

Internal fruit feeders

Plum curculio.....	82
Apple curculio.....	82
Apple maggot.....	83
Cherry fruit flies.....	84
Cherry • Black cherry	
Dock sawfly.....	85
European apple sawfly.....	86
Cherry fruitworm.....	87
Codling moth.....	88
European corn borer.....	89
Oriental fruit moth.....	90

Fruit deformation

Pear midge.....	91
Apple seed chalcid.....	92

Bark/stem damage

Shothole borer.....	93
Peach bark beetle.....	94
Buffalo treehopper.....	95
Periodical cicada.....	96
Snowy tree cricket.....	97

Wood-boring damage

American plum borer.....	98
Dogwood borer.....	99
Lesser peachtree borer.....	100
Peachtree borer.....	101
Prionus borers.....	102
Broadnecked root • Tilehorned	
Roundheaded appletree borer.....	103
Flatheaded appletree borer.....	104

Scales

European fruit lecanium (Brown apricot scale).....	105
Terrapin scale.....	105
European fruit scale.....	106
Forbes scale.....	107
Oystershell scale.....	108
San Jose scale.....	109
White peach scale.....	110

Mites

Apple rust mite.....	111
European red mite.....	112
Pear rust mite.....	113
Pearleaf blister mite.....	114
Plum rust mite (Peach silver mite).....	115
Twospotted spider mite.....	116

Beneficial insects, spiders, and mites (listed by type)

Mites

Phytoseiid mites.....	119
Stigmaeid/"yellow" mites.....	120
Red velvet mites.....	121

Spiders

Foliage hunters.....	122
Jumping • Crab • Sac	
Foliage web-builders.....	123
Orb-weavers • Cobweb	
Meshweb • Sheetweb	

Beetles

Lady beetles.....	124
2-spotted • 7-spotted • 14-spotted	
Multicolored Asian (Halloween)	
Spider mite destroyer.....	126

Flies

Gall midges.....	127
Hover flies.....	128
Tachinid flies.....	129

True Bugs

Glassy-winged mirid bug.....	130
Stink bugs.....	131
Assassin bugs.....	132
Minute pirate bugs.....	132
Mullein plant bug.....	133

Bees and Wasps

Bees and bumble bees.....	134
Ichneumonid parasitic wasps.....	135
Braconid and chalcid parasitic wasps.....	136

Lacewings

Lacewings.....	137
----------------	-----

Thrips

Black hunter.....	138
-------------------	-----

Diseases (listed by damage symptoms)

Trees wilted, stunted, off-color, or prematurely defoliating

Apple union necrosis and decline/ AUND (apple).....	141
Armillaria root rot (pome/stone fruit).....	142
Constriction disease of Stanley plum/Brown line (plum).....	143
Crown gall (pome/stone fruit).....	144
Peach tree short life/PTSLS (apricot, nectarine, peach, plum).....	145
Phony peach disease (peach).....	146
Phytophthora root, crown, and collar rot (pome/stone fruit).....	147
Prunus stem pitting (cherry, peach).....	148
Replant disorders (pome/stone fruit).....	149
Root-lesion nematodes (apple, cherry, peach).....	150
Silver leaf (pome/stone fruit).....	151
Southern blight (apple, stone fruit).....	152
Verticillium wilt (apricot, cherry, nectarine, peach, plum).....	153

Cankers (may be associated with wilting of branches)

Apple anthracnose (apple, pear).....	154
Bacterial canker/Blossom blast (apricot, cherry, nectarine, peach, plum).....	155
Black knot (cherry, plum).....	157
Black rot (apple, pear).....	194
Blister canker of pear (see Black pox of apple).....	178
Nectria canker (apple, pear).....	158
Perennial canker of stone fruit (apricot, cherry, nectarine, peach, plum).....	159

Perennial canker of apple and pear (apple, pear).....	160
White rot (apple, pear).....	207

Symptoms on blossoms and/or wilting new shoots

Bacterial blossom blast of pear (pear).....	161
Blossom blast (see Bacterial canker).....	155
Blossom and twig blight (see Brown rot).....	198
Fire blight (apple, pear).....	162
Fusicoccum canker/Constriction canker (peach).....	164
Nectria twig blight (apple, pear).....	165

Symptoms on leaves only

Alternaria blotch (apple).....	166
Apple latent viruses (apple).....	167
• Apple chlorotic leaf spot virus	
• Apple stem grooving virus	
• Apple stem pitting virus	
Apple mosaic virus (apple).....	168
Cherry leaf spot (cherry, plum).....	169
Frogeye leaf spot (see Black rot).....	194
Mycosphaerella leaf spot (pear).....	170
Necrotic leaf blotch (apple).....	171
Pear vein yellows (pear).....	172
Prunus necrotic ringspot (cherry, peach, plum).....	173
Sour cherry yellows (cherry, plum).....	174

Symptoms on leaves and possibly fruit

Apple scab (apple).....	175
Bacterial canker (apricot, cherry, nectarine, peach, plum).....	155
Bacterial spot (apricot, nectarine, peach, plum).....	177
Black pox of apple/Blister canker of pear (apple, pear).....	178
Fabraea leaf spot (pear).....	179
Frogeye leaf spot (see Black rot).....	194
Green ring mottle virus (cherry).....	180
Peach leaf curl (nectarine, peach).....	181
Pear leaf spot (see Fabraea leaf spot).....	179
Pear scab (pear).....	182
Plum pockets (plum).....	183
Plum pox virus (apricot, nectarine, peach, plum).....	184
Powdery mildew of apple and pear (apple, pear).....	185

Powdery mildew of apricot, nectarine, peach, and plum (apricot, nectarine, peach, plum).....	186
Powdery mildew of cherry (cherry).....	187
Rust diseases.....	188
• Cedar apple rust (apple)	
• Quince rust (apple, pear)	
• American hawthorn rust (apple, pear)	
X-disease (cherry, peach).....	190

Symptoms on fruit only

Alternaria fruit rot (apricot, apple, cherry, peach, pear).....	191
Anthracnose (cherry, peach, plum).....	192
Bitter rot (apple, pear).....	193
Black rot/Blossom end rot/ Frogeye leaf spot (apple, pear).....	194
Blister spot (apple).....	196
Blossom end rot (see Black rot).....	194
Brooks fruit spot (apple).....	197
Brown rot (apricot, cherry, nectarine, peach, plum).....	198
Calyx end rot (apple).....	200
Core rot (apple).....	202
Dry eye rot/Blossom end rot (apple).....	200
Flyspeck (apple, pear).....	206

Green fruit rot (apricot, cherry, plum).....	201
Moldy core (apple).....	202
Peach scab (peach).....	203
Pear stony pit (pear).....	204
Rusty spot (peach).....	205
Sooty blotch (apple, pear).....	206
White rot (apple, pear).....	207

Symptoms on harvested or stored fruit

Bitter pit (apple).....	208
Blue mold (apple, pear).....	209
Cork spot (pear).....	208
Gray mold (apple, pear).....	210
Mucor rot (apple, pear).....	211
Rhizopus rot (peach).....	212
